SUMMARY

Hi, I'm Joseph. A Fresh Graduate - Web Developer with a foundation in Next.js, Laravel API, and PostgreSQL. Skilled in delivering quality, modern, cloud-native solutions and managing databases. Proven ability to handle projects from initiation to delivery, blending technical expertise with a focus on user-friendly, visually appealing digital solutions, modern designs using modern technologies.

WORK EXPERIENCE

SANYO DENKI PHILIPPINES, INC. - Programmer / Full-Stack Web Developer **May 2026 – Present**

- Develop and maintain custom web applications and internal business systems using Next.js, Laravel/PHP, RESTful APIs, and Microsoft SQL Server.
- Transform manual and paper-based workflows into systematic, web-based solutions to improve process efficiency and data accessibility.
- Perform data analysis and processing to support business operations and identify opportunities for process improvement.
- Design and implement application logic, database structures, and system workflows based on departmental requirements.
- Provide technical assistance to colleagues by developing and troubleshooting business logic, formulas, data processes, and system-related issues.
- Collaborate with end users to understand operational requirements and translate them into practical software solutions.

Self-Employed Freelance - IT Technician and Web Developer **August 2025 – May 2026**

- Provided technical repair and maintenance services for laptops, system units, and printers.
- Diagnosed hardware malfunctions and performed component replacements to restore device functionality.
- Developed and maintained scalable web projects utilizing Next.js for the frontend and Laravel API for the backend.
- Utilized Postgres for database management.

President Ramon Magsaysay State University - On the Job Trainee **January 2025 – May 2025**

- Assisted in creating client websites and gained hands-on experience with various web technologies.
- Provided technical repair and maintenance services for laptops, system units, and printers.
- Learned and applied industry best practices to deliver quality digital outputs.

Self-Employed - Freelance Web Developer **May 2023 – December 2024**

- Developed custom web projects for clients, utilizing a stack that included HTML, PHP, and JavaScript.
- Managed full project lifecycles from initial requirements gathering to final delivery and system presentation.
- Focused on creating user-friendly and visually appealing digital solutions.

EXPERTISE

- **Frontend:** Next.js, JavaScript, TypeScript, Tailwind CSS, HTML5, CSS3
 - **Backend & APIs:** Laravel, PHP, Convex, Supabase
 - **Database:** MySQL, Postgres, PhpMyAdmin
 - **Basic knowledge:** WordPress, Python, Java, C++, docker, flutter
-

EDUCATION

- **Bachelor of Science in Information Technology**
President Ramon Magsaysay State University
2021 – 2025
 - **Senior High School & Junior High**
School Santa Cruz Academy, Inc.
2015 – 2021
-

KEY SKILLS

- **Technical Problem Solving:** Strong ability to debug complex issues across the full stack projects.
 - **Project Management:** Experienced in handling full project lifecycles, from initiation to delivery and presentation.
 - **Adaptability:** Quickly learning and implementing emerging technologies and frameworks.
-

STRENGTHS

- **Technical Problem-Solving:** Resolving issues across Next.js, Laravel API, and Postgres.
 - **Solution Delivery:** Developing maintainable quality web applications.
 - **Adaptability:** Always willing to learn new technologies.
 - **Collaboration:** Working effectively with cross-functional teams and clients.
 - **Versatility:** Expertise spanning software development, web commissions, and hardware repair.
-

PROJECTS

Research Repository System | Next.js, TypeScript, Postgresql

- research-repository-system.vercel.app
- Designed for end-to-end academic research lifecycle management from submission to publication.

Advance-Project-Flow | Next.js, TypeScript, Postgresql

- advance-project-flow.vercel.app
- A collaborative project and task management platform for modern teams.

InsightFlow | Next.js, TypeScript, Web APIs

- insight-flow-nine.vercel.app
- Built a modern SaaS analytics dashboard focusing on clean data visualization and responsive frontend architecture.

Typing Speed Tester | Next.js, TypeScript

- typing-speed-tester-six-mu.vercel.app
 - Provides a random paragraph for the user to type as accurately and quickly as possible.
-

INTROSPECTION

I hereby declare that the information provided above is accurate to the best of my knowledge, and I am committed to applying my skills and efforts to contribute effectively to the organization's success.
